19<sup>th</sup> September 2015

*Around 15 years ago I developed dry scaly skin on my hands, I was referred to a Dermatologist who diagnosed Psoriasis.*

*Over the years I have tried all sorts of remedies including UV light therapy, various steroid creams, coal tar treatment, various moisturising lotions and also a few not so conventional creams... cow's udder cream, aloe vera etc In the summer this year my hands were extremely sore as you see from the 1st picture taken on 20th August. I was finding it painful to drive and do simple things like washing the dishes.*

*I came across Gloves in a bottle, read the reviews and ordered it!*

*Well I think the results speak for themselves, within a few days I was almost pain free, and it just kept getting better and better. May I also add that my condition was very embarrassing as well as painful.*

*This had a huge impact on my life, as I would try to hide my hands, or in fact miss out on social occasions as my hands were hideous, now I'm gaining confidence as my skin is constantly improving thanks to Gloves in a bottle. I highly recommend this product for anyone who has troublesome skin...amazing!*

*FIONA C, Scotland*
